About The Artisan Store Fremantle

Our mission is to make our resident artists successful and profitable.

The Artisan Store Fremantle celebrates and nurtures the talent and diversity of Western Australia's leading artists, providing an arts space to share your stories, artistry and vision with the public.

This is not your typical rent-a-shelf handmade market store, The Artisan Store Fremantle is a curated art gallery where we don't charge commission but we do need to impose an administration & service charge per week based on the size of your space.

This is a unique opportunity for artists to promote works and receive in return the full retail value that you set.

Artisans are often difficult to locate due to many operating from home based or small community studios; shoppers often cite the difficulty in locating quality local artisan objects. The Artisan Store Fremantle provides a centralised art space for a diverse collection of artists and a mecca for shoppers seeking unique quality artisan items.

TASF is the perfect place to promote your work without the cost and burden of setting up your own shopfront. We take care of the sales so artisans can focus on creation and production. We also provide the opportunity for Artisans to connect with the shopper, as meeting the Artisan is often the most important element of the buyer's experience.

The Artisan Store Fremantle has grown from my own quest to find affordable sales platforms of quality for my own jewellery business. This store has emerged from that search and turned into a mission to connect artists with shoppers, to bring quality art to everyone and to create an affordable, enjoyable experience for all.

Hence, The Artisan Store Fremantle was created as a permanent gallery for artists to self-promote and sell their works to the consumer ready market at minimal expense.

The Idea

The Artisan Store Fremantle is a shared retail gallery space. Artists have a dedicated space within the store to display their works to the general public, paying a weekly administration and services fee with the full sale proceeds going back to the artist

Each space in The Artisan Store Fremantle is a miniature gateway to discovering a new artist .With over 200 different available areas and positions, including shelving, hanging racks, pedestals, floor space, picture rails, and window displays, artists choose where they want their products displayed based on price and availability.

Artists can choose between a 6 or 12 month contract. Payment is due on the 1st of each month in advance. Stock cannot be displayed until payment is received. Your sales will be credited to your nominated account at the end of each month. Payments not received by the 1st of the month will result in forfeiture of space and works will be removed from the shelf and placed in storage for collection.

Every item an artist submits for selling will receive a unique TASF barcode which will be electronically recorded during a sales transaction. A unique log-in ID can be provided for an additional cost to each artist for monitoring of sales, profit/loss graphs. No need to come into the shop or phone to check on stock levels. Weekly sales reports will be emailed to you for stock control and sales data. You can choose whether you want instant data or wait for weekly reports so you can decide when you need to restock and can plan ahead with cash flow.
